

Laser Lipolysis

What is Laser Lipolysis?

The Accent Prime features a patented combination of longitudinal and transverse Ultrasound wave technology. A combination of the latest innovations in ultrasound (US) and radio frequency (RF) technologies to deliver effective, highly customized treatments with natural, long lasting results. The US energy is distributed homogenously throughout the treatment area, effectively disrupting stubborn fat cells. RF power is then used to produce thermal deep heating to the tissue, resulting in a more concentrated energy treatment to ensure an increase in blood and lymph circulation to result in a firmer and tighter appearance.

Laser Lipolysis indications:

- Skin rejuvenation & skin tightening (Laxity, wrinkles, fine lines)
- Face & neck contouring (submental shaping)
- Cellulite

Is it painful?

Not at all. You can expect to feel absolutely nothing with the Ultrasound and only warmth with the Radio frequency.

How soon after filler/botox injections can I have a Laser Lipolysis treatment on my face area?

You need to wait a minimum of 2 weeks after having the treatment before having a Laser Lipolysis treatment to ensure that your results are not compromised.

How long should it take before I see results?

Typically, you will see final results after a course of treatments. Especially when combined with the recommended post-treatment care(eg. exercise, diet etc), you will reap the full benefits.

Preparation before treatments:

- Get into the habit of drinking more water because the Lymphatic System is activated
- No products with Retinol, AHA's, BHA's or Hydroquinone to be used on the area for 3 days prior to treatment
- No peels, waxing, laser, electrolysis, threading for 2 weeks before the treatment
- No sun exposure for 1 week prior to the treatment

After the treatment:

- Immediately after the session your skin will feel warm to the touch and the redness will fade within 1 hour
- There will be NO other discomfort or pain. Generally, clients feel quite relaxed
- It is vital to drink at least 8 glasses of water per day, to flush out all the toxins as the Lymph Drainage is now activated!!
- NB: With the Detox Process, you can experience headaches. Try to avoid taking headache tablets. Rather drink more water to flush the toxins
- No gym or exercise on the day of treatment
- You may experience dryness on the treated area
- Very important to not exfoliate at home or scratch the skin for 3 days post treatment
- Our Ultra Repair cream is recommended to be applied as much as needed for the next 3-5 days
- Your normal skincare regime can be followed 3 days post treatment
- Make-up can be applied 24 hours post treatment – Preferable to wait 48 hours before applying make-up
- No peels, waxing, laser, electrolysis, threading for 5 days post the treatment
- No sun exposure for 1 week post treatment

Why is aftercare important?

Homecare for your skin and body is like going to the dentist (You see your dentist twice a year however you brush your teeth everyday to maintain oral health)

The same concept applies to your skin care regime and lifestyle.

Aftercare/Homecare is vital to maintain your results from your in clinic treatment to ensure that we prevent any problematic concerns worsening because "Prevention is always better than cure".

How many sessions will you need?

This will depend on each client and a unique treatment plan will be discussed with you but in general:

- 6 – 12 treatments (or when desired results are achieved)
- 1 or 2 week intervals between sessions
- Maintenance treatments are advised after desired results have been achieved

Conditions NOT suitable for Laser Lipolysis:

- Pacemaker
- Hypertension/Hypotension
- Fibromyalgia
- Epilepsy
- Chronic Arthritis
- Diabetes
- Blood clotting Disorders
- Herpes Simplex (Fever Blister)
- Stroke/Cerebral Palsy
- Chronic Heart Conditions
- Cancer
- Aneurism
- Headaches/Migraines
- Eczema/Psoriasis
- Auto Immune Disorders

What payment options are there?

- You can pay session by session
- You can pay upfront in advance for a course of 4-8 sessions with a discount
